EDITORIAL GRAPE SHOT.

Admiration alone will not run a newspaper. Sooner or later such admirers will find that the object of their affections has become wedded to other ways that they do not admire—in other words a newspaper is compelled in order to live, to seek the friendship of those who are not so platonic in their love, but unite their practical esteem with sentiment that binds mutual admiration in other professions. There are too many men who expect an editor to slave in defense of their pet notions and hobbies, advocate their views against the strongest opposition and then coolly withhold the business support by which alone a small newspaper can live.

Who wouldn't be a farmer? There is just one trouble, only the farmers know how to farm. There are thousands of people who would like to quit the towns and cities, take up a life in the country and possess themselves of broad fertile fields and undertake to make two blades of this, that or the other kind of grass grow where one, or none, grew before; but this proposition has its drawbacks, in that it takes from ten to twenty years to learn how to farm, (some folks never learn) and within such a period bankruptcy might occur several times over. But if all of us cannot be farmers, all can admire the horny-handed sons of toil and rejoice with him in his present great prosperity. He is the bulwark of the nation and the salt of the earth.

We wonder how many parents realize that their child is a book of blank paper in which shall be inscribed the record of their own lives. Be careful, therefore, what you have written there for the world will read it. All your secret thoughts the child will try to write.

The papers of the large cities are all right if you want them, but it is your own home county paper that carries your church notices and various society announcements, advertises your schools, boosts every section of the field it covers, sympathizes with you in your afflictions and rejoices with you in your prosperity. In short, it is the local paper that mentions the thousand and one items in which you are interested during the year, and do not find in city papers.

How quickly can you tell a live town from a dead one by simply looking over its newspaper. A poor skin-milk sort of newspaper with a few small advertisements, and those looking as though they were run at half-price, betokens a dead town as sure as a corpse indicates a funeral, while a good lively well-printed paper, filled with good, fresh ads and displayed locals, shows that the town is prosperous and thriving. It never fails.

When the sun shines and the roads become dusty, you wish it would rain; when it rains and the roads get muddy you wish the sun would shine; when you wish the sun would shine you wish you were single and now that you are married you wish you were single, and if you get a new dress you wish you had a new hat to match it; if it is a boy you wish it was a girl, and if it is a girl you wish it was a twin; and if should be twins you wish the devil had you—was human nature ever satisfied? Guess not, and glad of it, for then there would be nothing for you to "kick" about.

Boy's Head Split Open.

Oscar Pitts the little 6-year-old son of Mr. Pitts, of Palmetto, whose head was split open by the saw at a saw mill near Palmetto, while playing in the pit on Friday and was carried to the infirmary at Florence for treatment, died Saturday evening. The little fellow was unconscious all the while, as the saw cut through the skull into the brain. It was a most horrible wound and it was marvellous that he was not killed instantly.

Potato Slips for Sale.

Ona, Fla., April 3d, 1909.
Mr. J. L. C. Thompson,
Pickens, S. C.

Dear Friend:
I want you to tell all my friends and neighbors that I have a large supply of sweet potato slips of the very best sorts: Porto Rico, Triumph and Nan- cy Hall.

I will be glad to receive a long letter from each one of my old acquaintances whether they want slips or not.

This leaves us well and enjoying snap beans, new Irish potatoes, strawberries, &c., and good prospects for melons, roasting ears and other good things.

Yours very truly,

F. M. Morris.

Swept Over Niagara.

This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster current—Nature's warnings are kind. That dull pain or ache in the back warns you that kidneys need attention if you would escape fatal maladies—Dropsy, Diabetes or Bright's disease. Take Elec Bitters at once and see Backache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Blankenship, of Belk, Tenn. Only 50c at all Druggists.

Smallpox Over State

Smallpox has broken out in several towns of this state, and it would be well for the people of Bamberg to look after the matter of vaccination. We had a few cases of this disease here several years ago, which cost the town considerable money, and another such experience as this should be avoided. The only way to prevent it is to have everybody vaccinated, and yet there are lots of people here who are not vaccinated. "An ounce of prevention is worth a pound of cure."—Bamberg Herald.

Words To Freeze The Soul.

"Your son has Consumption. His case is hopeless." These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield, N. C. by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Blevens, "he was as well as ever, I would not take all the money in the world for what it did for my boy." Infal- lible for Coughs and Colds, its the safest, surest cure of desperate Lung diseases on earth. 50c and \$1.00 at all Druggists. Guarantee satisfaction. Trial bottle free.

Blue Ridge Railroad

There are numerous wild rumors that the Blue Ridge railroad is to be completed through to the West in the near future. It may be that the road will some day be put through, but there is little hope for the aim of President Andrews to complete the road on the original plans at the earliest time possible, but the time, looking at it from the railroad's standpoint, is not ripe. The next ten years, however, may see work on the old Blue Ridge line begun.—Walhalla Courier.

Extracted From Tongue

Mr. David Mitchell, who lives with Mr. Solomon Gregory, near the Fairview community, has had an experiment that is extraordinary. Fourteen years ago he was shot with a .38 caliber pistol, the ball knocking out two teeth. On last Saturday he came to Union and had Dr. Montgomery to examine his tongue for something had evidently gone wrong with that member. Dr. Montgomery carried the patient to Dr. I. M. Hair and out of his tongue was extracted one of the teeth which were shot out fourteen years ago. It had been shot into the center of the top of the tongue, and when the gun-shot wound healed the tooth was inside the body of the tongue. Recently Mr. Mitchell felt this tooth strike against his other teeth. He came on a few days later and had the tooth taken from his tongue.—Union Times.

Norris Items.

Editor Sentinel-Journal: For fear the readers of The S. J. will forget there is such a place in the world as Norris, I will give you a few dots from here.

The farmers are progressing nicely with their work and are about through with their planting.

Mr. Will Maddox has finished planting cotton.

Mrs. Brown, of Central, visited in Norris last week.

Mr. Walter Mauldin, a young man of Norris, left recently for Birmingham, Ala.

Mrs. Woodson, and daughter, Miss Ada, visited friends in Norris last week.

Mrs. Bud Gilstrap, and son, Clyde, who have been very sick, are better at this writing.

Minnie Lee Times, of Catechee, got her finger cut off last week while at work in the cotton mill. Dr. Woodruff took it off about the second joint. She is suffering painfully with it at present.

Miss Florence Whitmire returned to her home at Salem last week. We sure was glad to have her with us.

Mr. Will Williams has been suffering greatly with a rising on his jaw, but I think he is just love-sick. Ha, ha!

Wonder what has become of "Old Riddle." Wonder if she is going to get married. If she is, hope she will invite us all to the wedding.

Come again, Pansy, your letter was fine.

Several of the Norris people attended the Sunday School rally at Golden-Creek last Sabbath, and report a very nice time.

Mr. J. M. Whiten, the post master, was walking the streets of Norris Sunday afternoon and says he has worn out three buggies trying to get married and says he is going to get him an automobile. Let's see girls, who will be the first one to ride in it. Hope it will be Red Rose. Ha, ha!

Summer is coming. The trees are budding, and the flowers are blooming out.

With best wishes to the S. J. and its many readers.

RED ROSE OF NORRIS.

Tonic or Stimulant?

There is an immense difference between a tonic and a stimulant. Up one day, way back the next; that's a stimulant. Steady progress day by day toward perfect health; that's a tonic. Ayer's Sarsaparilla is a tonic, a strong tonic. The only Sarsaparilla entirely free from alcohol. Do not stimulate unless your doctor says so. He knows. Ask him. Do as he says. J. C.
